CONNECTING TO COUNTRY

CONNECTING TO EACH OTHER

CONNECTING TO NATURE

- Conservation - bush regeneration.
- Carp - using traditional fishing techniques to put the fish in a state of slumber for ease of catching.
- Cooking and tasting bush tucker.
- Connecting with Micklo, Gumbaynggirr Goa.
- Creative Connections Art Therapy - "Shite to Rainbow Unicorns".

Every Thursday 8R is taken out of the classroom and taught in nature. The aim of this program is to change the way education is delivered in NSW. It's time to think outside the square.

This project has been funded under the NSW, Resilience NSW Bushfire Community and Resilience Fund.
