

# SHAPING THE FUTURE OF LANDCARE: UN Goals and Priorities for Nature and Climate

## UNAA NSW and Landcare

Working together to double down on local action and initiatives that the Landcare movement is known for and finding new ways to partner and roll out solutions at speed and scale. This will be the key to keeping our collective SDG ambitions alive in this 'Decade of Action'.

Three major UN events in particular look set to shape and guide on-the-ground Landcare efforts out to 2030 and beyond, with partnerships for local action at the heart.

1. The UN Environment Assembly (UNEA)
2. The UN Conference on Biodiversity
3. Stockholm+50: 'A healthy planet for the prosperity of all – our responsibility, our opportunity.'

Not only do these recent UN frameworks and agreements represent a major step forward for collective action on nature-based solutions, biodiversity and action on climate change and pollution, they provide an opportunity to ensure that local actions are both impactful and relevant.
